ENDOSPHERES ESSENZA

INNOVATION AND PROFITABILITY

Endospheres® Essenza represents the latest advancement in non-invasive aesthetic treatments—an **advanced, intuitive** technology designed to deliver **visible results**, enhance client loyalty, and increase the profitability of your business.

In the aesthetics industry, innovation and results make all the difference. Endospheres® Essenza combines **high performance** with ease of use, creating a winning business model.

Powered by Endospheres' patented technology, it brings all the benefits of **Compressive Microvibration®** in an optimized solution that enhances the operator's experience and maximizes return on investment.

This isn't just about innovation—it's an opportunity to transform your business.

● ○ ECLIPSE ● ● IMPERIAL ○ ● BLUSH

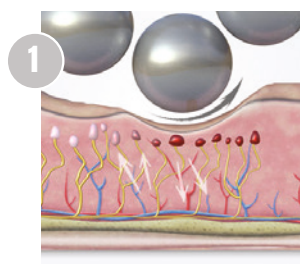

COMPRESSIVE MICROVIBRATION®

Endospheres® is the only patented technology that uses **Compressive Microvibration®**.

The sinusoidal wave generated by the mechanical movement of the spheres works deeply, from the dermis to the muscle.

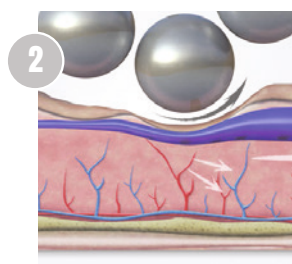

Studies and observations confirm the effectiveness of Endospheres® in visibly improving skin quality and overall body well-being.

5 COMBINED ACTIONS

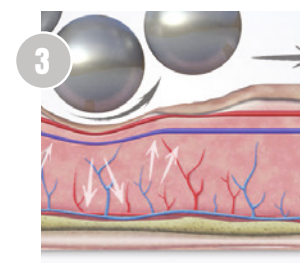

ANALGESIC

Stimulates the receptors in the dermis and reduces pain.

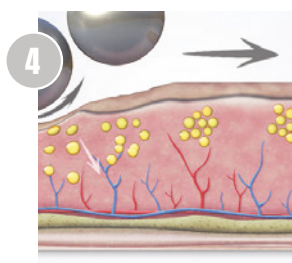

DRAINING

Acts on the lymphatic system and helps the body release toxins.

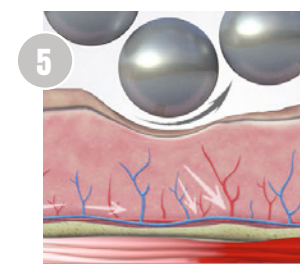

VASCULAR

Improves microcirculation and oxygenates the tissues.

REMODELING

Shapes the silhouette and smooths wrinkles.

TONING

Tones the muscles and firms the tissues.

ENDOSPHERES SENSOR SYSTEM SECOND-GENERATION TECHNOLOGY

The **Endospheres® Essenza** handpiece is equipped with a sensor system that optimizes treatment by **adapting it in real-time to the skin's needs**.

This system is managed by an algorithm that ensures maximum precision and control.

BOOST FUNCTION

The Boost function **analyzes** tissue resistance in real-time, detects fibrotic areas, and **automatically adjusts the frequency**, increasing it by up to **30%**. The treatment fully adapts to specific needs, ensuring maximum effectiveness.

- +

Intelligent and automatic adjustment
Delivers consistently effective treatments without the need for manual adjustments.
- +

Faster and more precise treatments
Ensures uniform action, reduces treatment time, and optimizes results in targeted areas.
- +

Enhanced comfort for both you and your client
The calibrated action prevents excessive pressure, making the treatment pleasant, safe, and effortless for the operator.

13 WORKING STEPS

The 13 steps are pre-set work programs that guide each phase of the execution protocol, ensuring **precision, effectiveness, and safety**.

Each session corresponds to a program designed to provide maximum reliability and results. The session sensitivity is calibrated to support the operator in treating different types of tissue.

Efficiency, visible results, and total control in every session.

THE SPHERES

The spheres are designed for effectiveness, safety, and comfort. Made with **cutting-edge materials**, they ensure a superior treatment experience while being gentle on both the skin and the environment.

Engineered for long-lasting performance without compromising results, they deliver optimal outcomes in every session. Innovation is not just about technology—it's about quality and sustainability.

2 ROTORS

With Essenza, the two included rotors are designed to work in synergy, providing a versatile and effective treatment. This dual technology enables the customization of each session, maximizing the benefits of toning, drainage, and reshaping for visible and long-lasting results.

15 SH GEL SPHERES

Designed to reduce inflammation and enhance analgesic and draining actions.

35 SH HYPOALLERGENIC SILICONE SPHERES

Developed for deeper action, improving vascularization, toning, and remodeling.

Honeycomb arrangement

Designed to generate optimal vibration.

SUSTAINABLE AND SAFE MATERIALS (FDA APPROVED):

- + Recyclable, compostable, and biodegradable
- + Durable and biocompatible
- + Sanitizable without degradation
