

Endospheres® *Smart*

**The first step in authenticity.
Real technology, real sensations.**

**Young,
intuitive
versatile and
technological.**

Endospheres® Smart is a **new** device
that delivers the power of our **patented
technology** right into your hands.

Endospheres® *Smart*

**A practical, accessible
ally, to make you stand
out in the market.**

Why Smart makes a difference

55 silicone spheres, created with an exclusive material, precisely calibrated and arranged in a perfect honeycomb harmony.

310 Hz maximum power

Smart sensors that read the fabric in real time

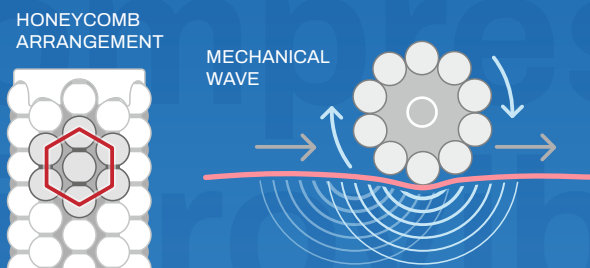

Visible results from the **first session**

100% Made in Italy technology, unique and authentic

**This is the difference
that shields you from
imitations.**

Compressive Microvibration®

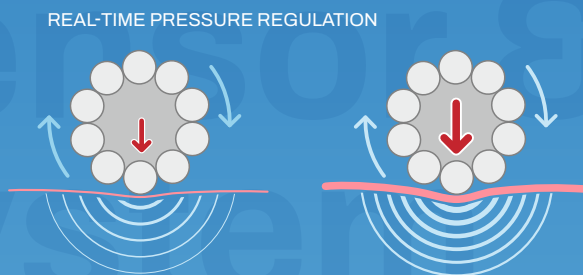

Our technology comes from **a powerful insight**: using movement to awaken tissue. A roller consisting of **55 silicone spheres**, arranged in a honeycomb pattern that makes contact with the skin. Their rotation creates a rhythmic vibration, a mechanical wave that stimulates microcirculation, drainage, and muscle tone. It is non-invasive and does no harm: it accompanies the body to regain balance and lightness on its own.

Sensor & Boost System

The handpiece always works in harmony with the tissue. Sensors read tissue resistance and **adjust pressure in real time**. It is just like having an intelligent ally to guide the operator's hand.

With **Boost**, power can be increased up to **310 Hz**, ensuring precision, efficiency and comfort at all times.

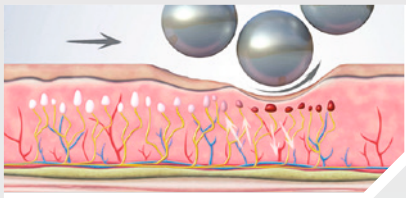

Endospheres®
Smart

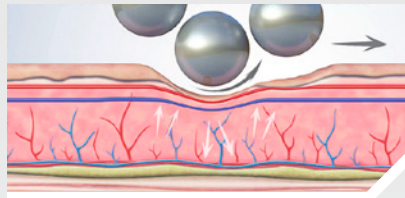

A single technology, **5 synergistic effects**

Action on tissue:

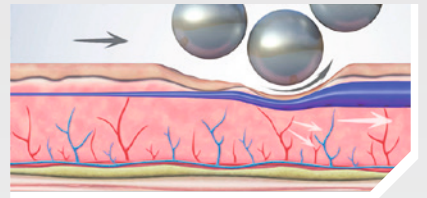

REDUCES PAIN

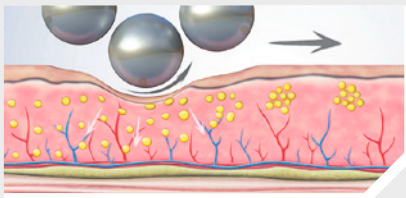

REACTIVATES
CIRCULATION

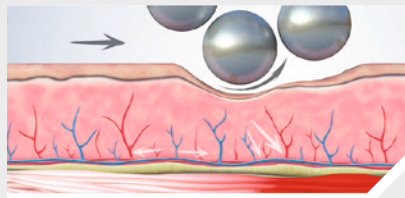

STIMULATES THE
LYMPHATIC SYSTEM

REDUCES UNSIGHTLY
CELLULITE

IMPROVES MUSCLE TONE

Endospheres® *Smart*

Application areas

- Arms
- Abdomen
- Buttocks
- Legs
- Ankles
- Back

Why join?

Reasons to choose it

It makes work easier:

technology recognises the fabric and adapts the treatment.

It attracts and retains

customers who seek visible and fast results.

Rapid ROI: an investment that soon turns a profit.

Compact, intuitive **design**, pleasant to use.
